Medium Wave Quartz Cassette

FSQ

- Iron-chrome aluminium resistance wire
- Heater Voltage: 230 Volts standard (other voltages available on request)
- Useful wavelength range: 1.5 - 8 microns
- Temperature Range: 475 - 1000 °C
- Average operating life: 5,000 hours
- Supplied with 100mm ceramic beaded tails with stud ends as standard. (Different lengths, insulation and ring terminations available on request).
- Average Weight : 300g
- Dimensions: 248 x 62 x 25 mm

Available Wattages (W) 150 200 250 300 400 500 600 650 750 1000
