Medium Wave Quartz Cassette

LQE

- Iron-chrome aluminium resistance wire
- Heater Voltage: 230 Volts standard (other voltages available on request)
- Useful wavelength range: 1.5 - 8 microns
- Temperature Range: 550 - 1000 °C
- Average Operating Life: 5,000 hours
- Supplied with 100mm ceramic beaded tails with stud ends as standard. (Different lengths, insulation and ring terminations available on request).
- Average Weight : 600g
- Dimensions: 248 x 120 x 25 mm

Available Wattages (W)

750 1000 1250 1500
