

## HLQ Range

The HLQ models are designed for heating larger areas and general internal installations, including under waterproof canopies / roofs.

With models from 1.5KW to 6KW they offer the instant answer to many zone or localised heating solutions. The units can be wall mounted or ceiling suspended, and come in single and three phase versions. They are manufactured from aluminium, and are finished in a neutral ivory powder coat finish. Guards come as standard with all models. All heaters are fitted with high efficiency gold shortwave lamps as standard.

## Technical Specifications

Model	HLQ15G	HLQ20G	HLQ30G	HLQ40G	HLQ45G	HLQ60G
Voltage	230V	230V	230V	230V	230V or 380V	230V or 380V
Rating	1.5kW	2kW	3kW	4kW	4.5kW	6kW
Length	420mm	420mm	420mm	420mm	420mm	420mm
Height	275mm	275mm	430mm	430mm	590mm	590mm
Depth	110mm	110mm	110mm	110mm	110mm	110mm
Weight	2.5Kg	2.5Kg	4.5Kg	4.5Kg	6.0Kg	6.0Kg
